

The **Junior High School (SMP)** curriculum is designed to challenge students academically while developing their social-emotional behavior/character.

Our school goal for students of Junior High School to meet **international education standards** by joining Scholarship Programs set by MOE Singapore. This opens up opportunities to challenge students academically and socially.

Extra Curricular activities in Cibubur Indonesia School are designed to cater students' talents in various areas such as Pramuka, Taekwondo Class, Choir Class, Modern & Contemporary Dance Classes, English/Spelling Classes, Mathematics Club and various other activities.

Cibubur Indonesia School always puts 'School Hygiene' as priority to create a Healthy & Safe learning environment..

Sanitizing & cleaning the school buildings & the surrounding area are done on a regular basis.

With all Safety Protocols in place, We are ready to open our school for face-to-face learning.

Primary/SD - Junior High/SMP
Sekolah Predikat AMAT BAIK (USBN-2019),
Accredited in 2019 by BAN S/M

Study in Cibubur Indonesia School (CIS)

Nurturing

Our school has a supportive climate for social, emotional and intellectual growth. Students directly learn social & emotional skills, such as self-control, empathy, and assertive behavior. This is done through role-playing, songs and follow-up activities.

Educating

Cibubur Indonesia School is **accredited** by **BAN S/M (Badan Akreditasi Nasional)**. Using National Curriculum, as a base, supported by **Cambridge International Curriculum**. We offer high quality education. Lessons delivered in classes are hands-on, student-centered, and active which encourage students to feel excited about going to school.

The class size & the student - teacher ratio (15 students per class), allow students to receive more individualized attention.

Cibubur Indonesia School is a member of **ANPS** (Association of National Plus School), which provides quality professional developments for teachers, ensuring the use of up-to-date teaching methodology in delivering lessons.

Digital Literacy is introduced in our school as early as Grade 1, preparing the students to face the era of digital learning. This ICT skills have proven, support students to ease into online interactive learning, smoothly during COVID-19.

Interactive Distance Learning has been implemented using Google Meet/Classroom since March 2020, during Covid-19. As a **Google Partner**, our school is able to maintain a regular learning schedule from 8.00AM – 02.00PM daily. This enable students to continue learning effectively.

Cibubur Indonesia School is committed to be a Trusted and Reliable learning place for students.

Perfect Score - 100, in Mathematics (USBN 2019)

Inspiring

It is one of our school's aim to always **inspire** students, to encourage them to have a deep rooted passion and motivation to learn and to give their best in every aspect of life.

'Knowledge without action is meaningless', therefore we encourage our students to challenge themselves through competitions, show-case of talents, and always strive to be the best.

School Programs

Primary Levels (SD) in Cibubur Indonesia School enhance students' thinking skills and deepen their understanding in the concepts learnt.

All subjects learnt in our classes enhance the development of **High Order Thinking Skills** instead of rote memorization. It distinguishes critical thinking skills from low-order learning outcomes.

Each level of our Primary Class will experience constructive excursions, and learn how to be independent, to become a good team player, and develop leadership skills.
